

ACCOMMODATION

IED MADRID

Welcome!

At IED Madrid, we want to support you in managing your stay in our beloved city. To this end, we have established various partnerships with accommodation companies to offer our students convenient and beneficial options.

We are confident that this guide will help you find the perfect accommodation for your stay in Madrid.

WHERE TO LIVE IN MADRID?

The most popular options among students are renting a room in a shared flat: economical and perfect for meeting people, living in a student residence, or renting your own flat. Choose according to your budget and lifestyle.

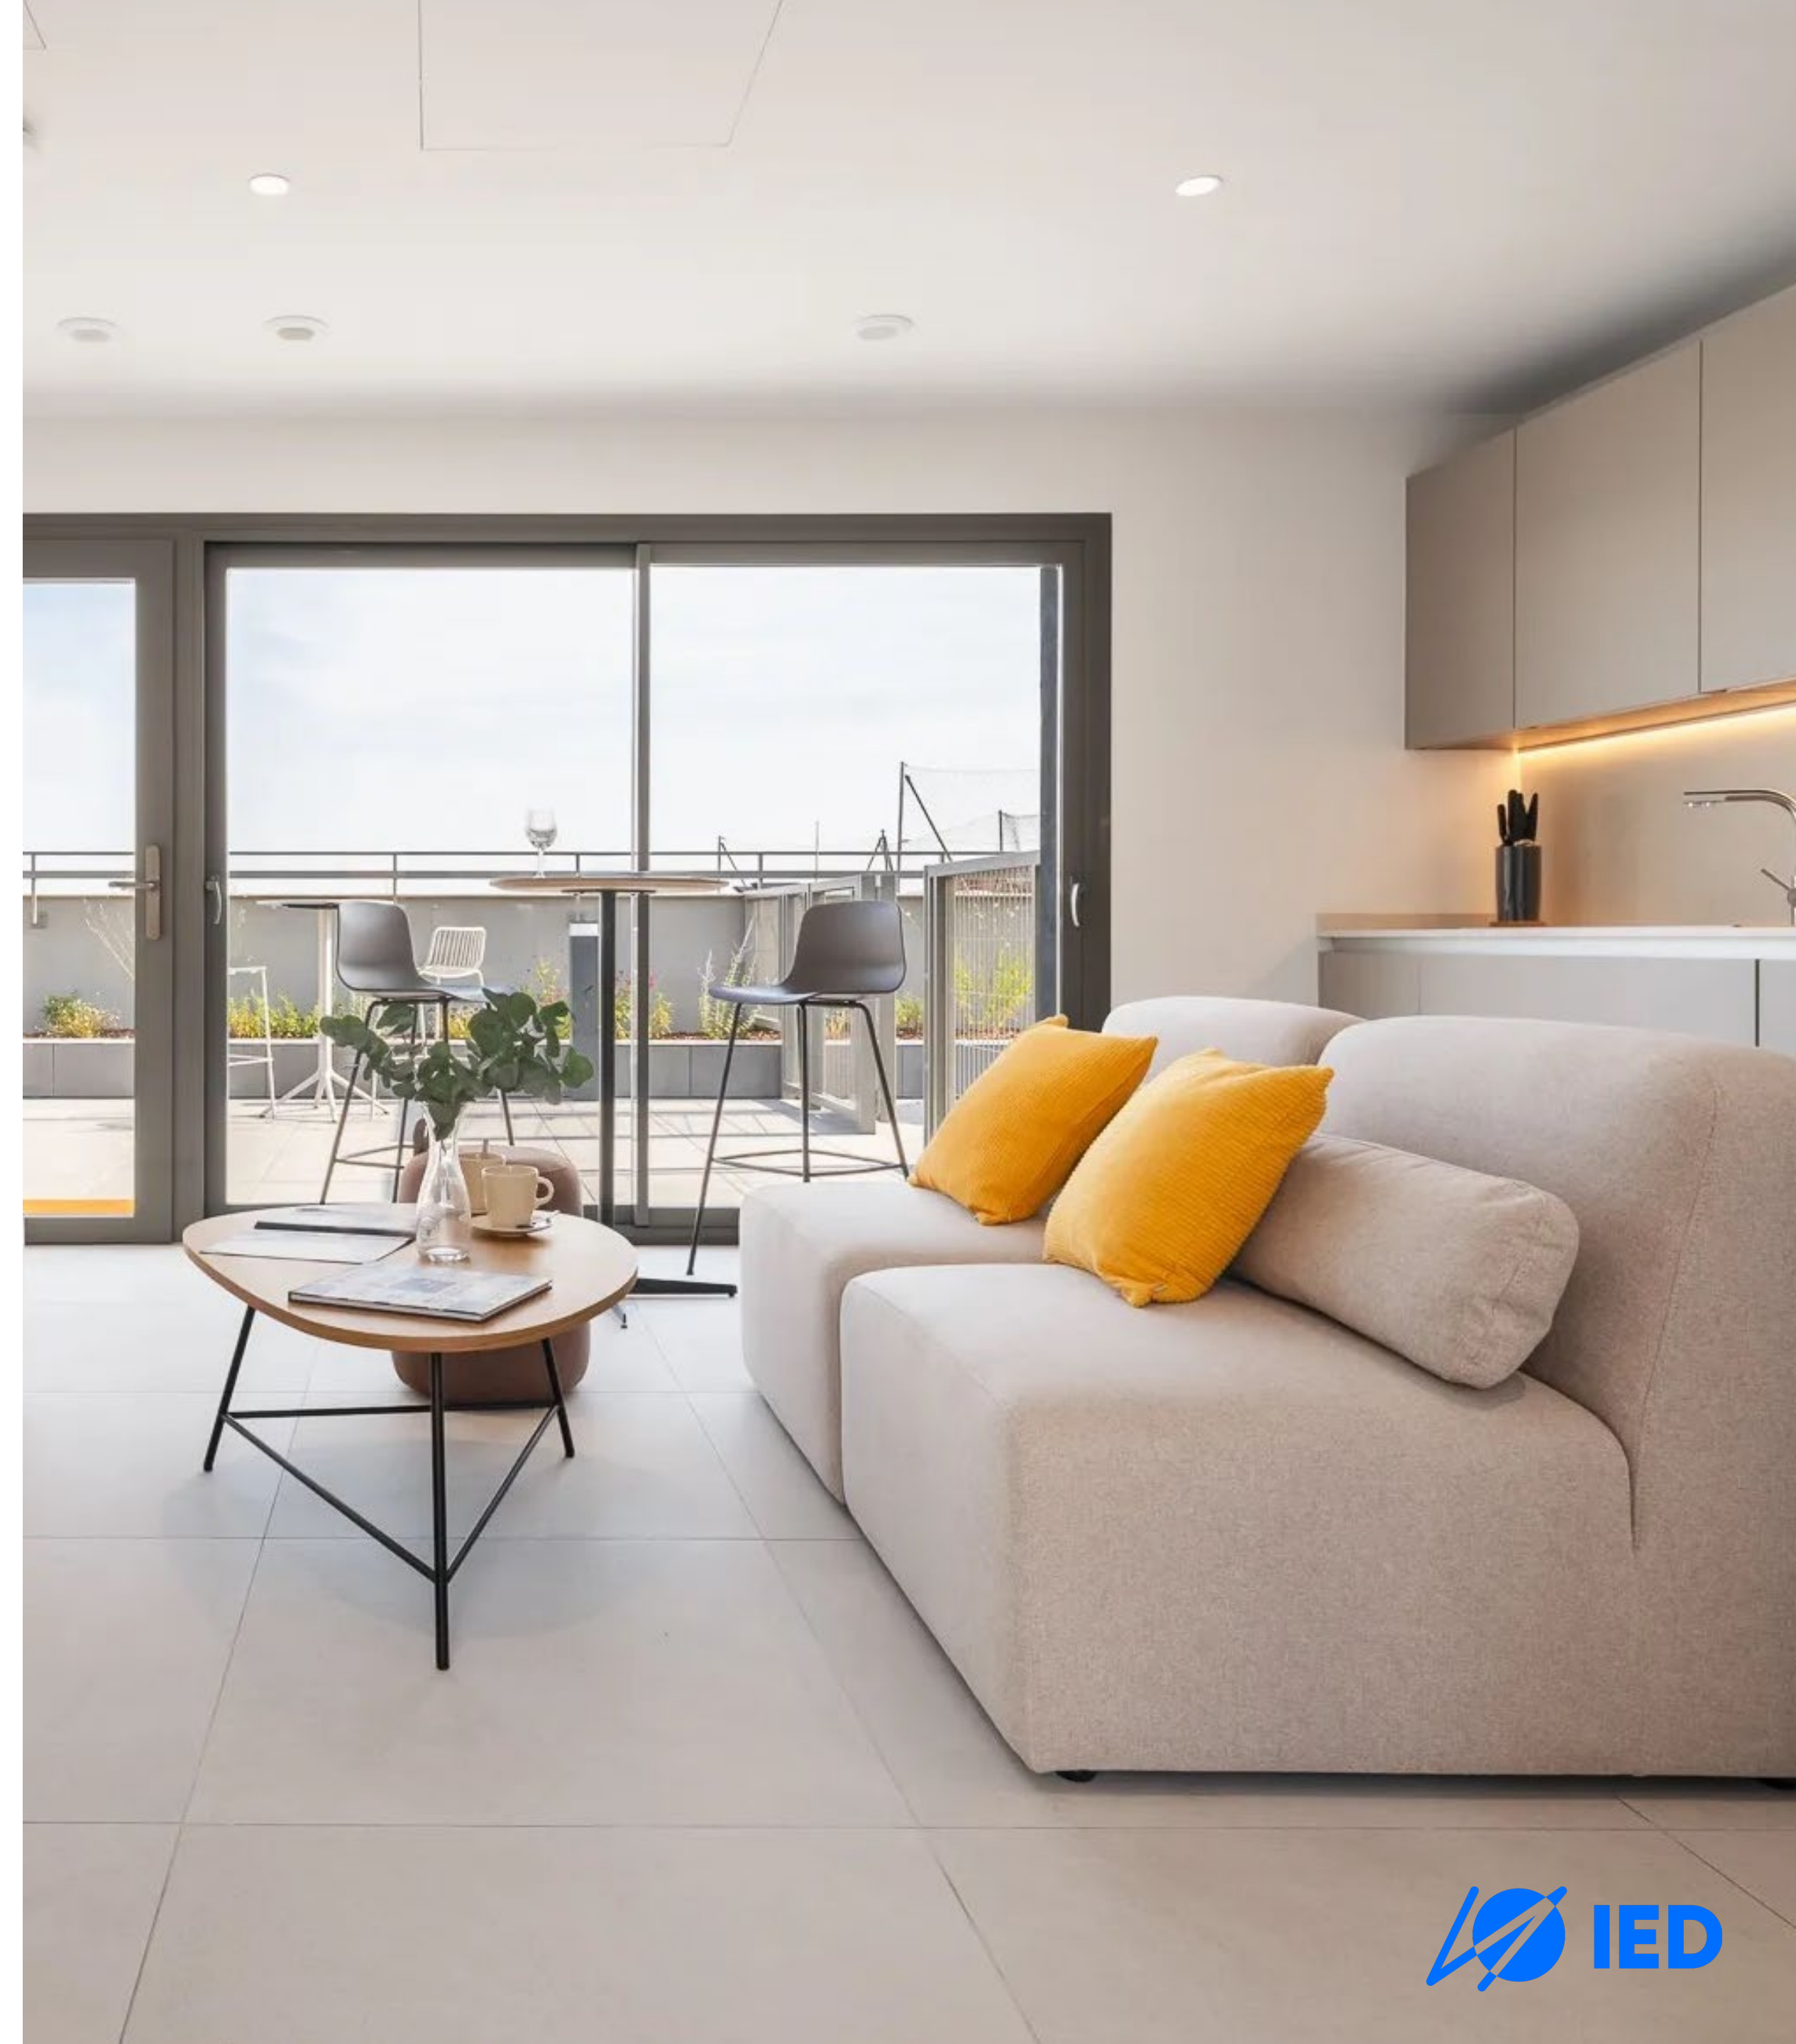

Before travelling to Madrid, start your search for accommodation online. Student accommodation is in high demand all year round, Especially from February to August, when many international and non-Madrid students book their rooms before arriving. This means that the best offers sell out very quickly.

RENTAL AGENCIES IN MADRID: Rooms and flats

Our recommendation is to rent your room or flat through an agency. These companies manage shared flats, studios and entire flats, specially designed for young people moving to Madrid.

Booking through an agency is the safest option, especially if you want to rent before you arrive: everything will be official and organized, you will have a reliable contact in the city and avoid possible scams.

You can start to get an idea by searching these online portals and platforms.
